

Mr Price Group Packaging Manual

Version 2

Oct 2021

Mr Price Group Packaging Manual

Basic Guidelines:

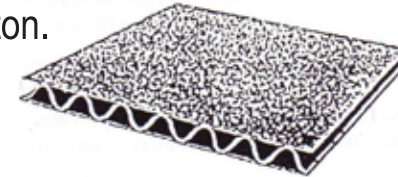

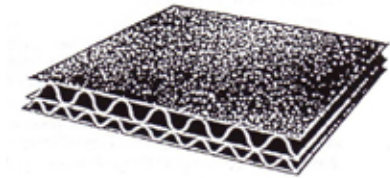

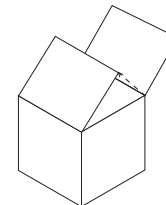

- All fragile cartons must be 5 ply, doubled walled, virgin cardboard – BC Flute configuration
- Fragile cartons with inner cartons and a master carton – Outer carton must be 3 ply single walled, virgin cardboard and the inner cartons 5 ply, doubled walled, virgin cardboard - BC Flute configuration
- All fragile inserts/dividers to be 3 ply and fit flush to top and bottom of carton.
- All soft cartons to be 3 ply cardboard. To be C flute configuration.
- All cartons must be sealed with supplier branded security tape.
- All cartons (inner & outer) must be at least 98% full.
- There should be no stock movement.
- All cartons (inner & outer) must be able to withstand a stacking.

Stacking: ISO 2234 or equivalent

- Aerothene (PE Foam) is to be used in lieu of bubble wrap.
- Fragile stickers and arrows to be used for all fragiles.

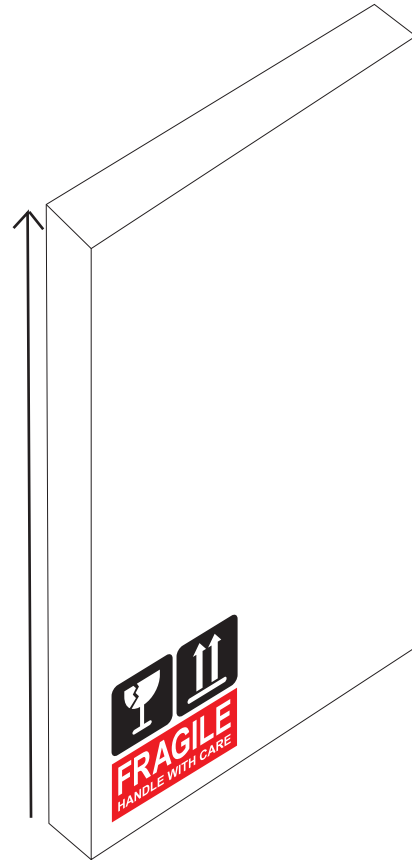

- Double flap ends for cartons for highlighted fragile items must be used.

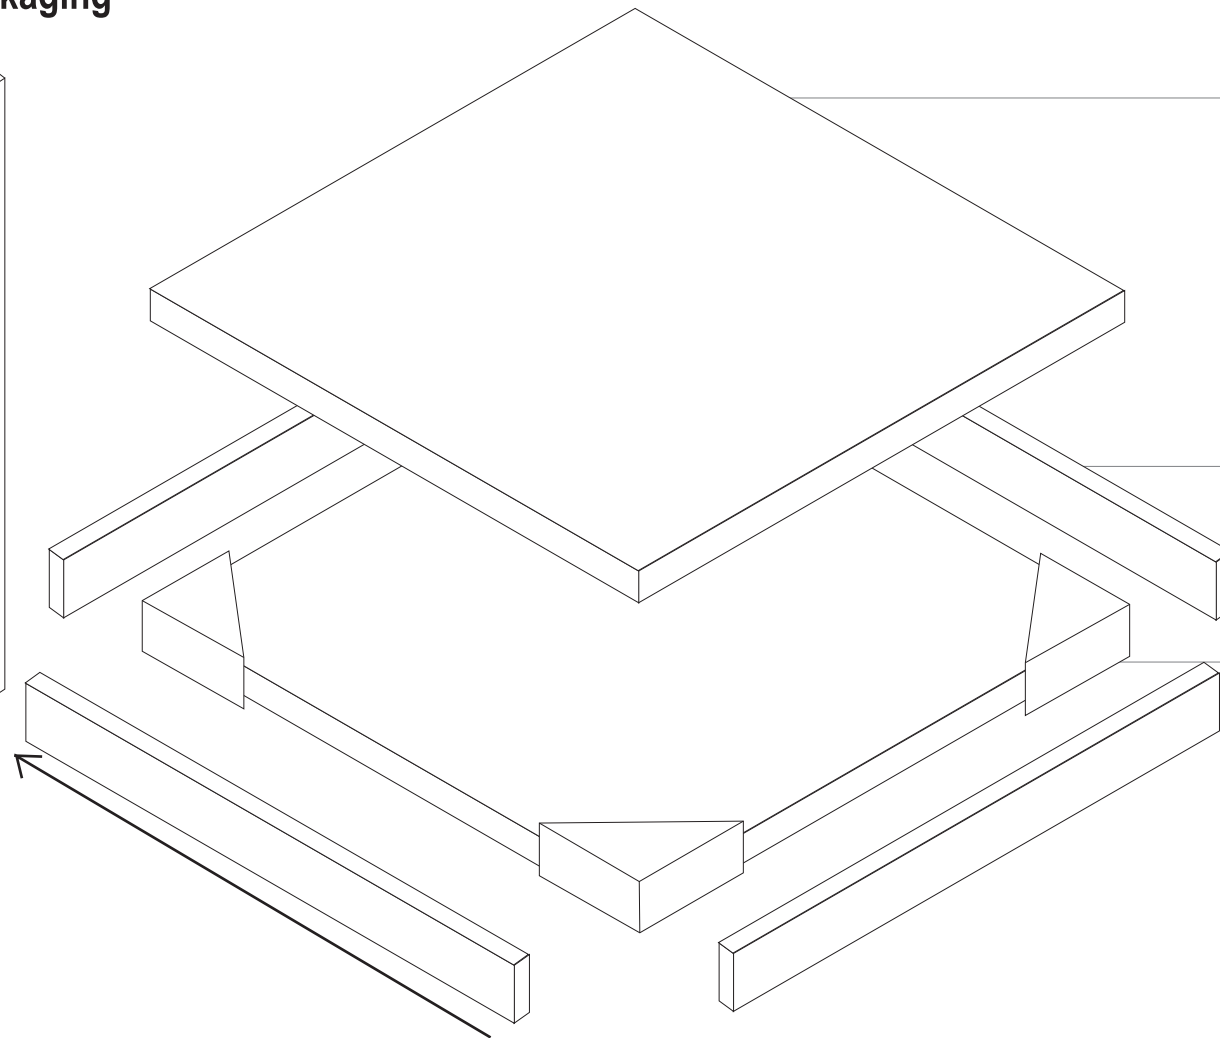

Mr Price Group Packaging Manual
